

Managers' Priorities for the EU Parliament Election

1. DIGITALIZATION

**As we approach
the upcoming
European elections,
we seek your collaboration
to support responsible
Artificial Intelligence (AI)
development**

**Fostering leadership
competencies,
transparent governance,
and collaborative
innovation ecosystems.**

**Leaders need
to adapt AI tools
to the specific purpose
and needs
of the organization.**

**As managers, we need
to promote social
partnership on AI,
to ensure human
oversight in AI decisions,
to encourage responsible AI
and lifelong learning
for technological adaptation.**

**USE
YOUR
LEADERSHIP.**
