

Managers' Priorities for the EU Parliament Election

6. TACKLE LABOUR SHORTAGES

Employers are facing increasing recruitment difficulties.

We need policies to focus on developing effective strategies to attract and retain skilled talent.

**We have set our ambition
to succeed in the green
and digital transitions,
not least with
the Green Deal
Industrial Plan.**

**Yet, it is in the digital,
green and some other sectors
that the labour market gaps
are the largest.**

**We invite
the EU institutions
to capitalise on
improving the attractiveness
of the European
labour markets.**

**To bridge the gaps,
we need to design flexible
lifelong learning offers.
Skills are an investment.
More than ever,
we need leaders
who can take people on board
and restore trust.**

AT
THE HEART
OF OUR
FUTURE

USE YOUR LEADERSHIP.
